Full Stack Web Developer

💼 Work Experience

School Management System (freelance at DataFirst)
2022/2022

is a system that manages a school's HR (employees, teachers, students, parents and supervisors)
and also it covers everything from logistics, cycles, years, subjects, courses, exams, exam results, absences and meals
I took the backend side of this project

Punchword (freelance)
2022/2023

I joined the punchword team as a full stack web developer
I took all of:
* the creation of the web pages necessary for the company
* creation of the punchword web platform which will be launched soon
* web master & server maintenance

Then I also switched as a mobile developer and I participated in the realization of new features of the application such as the post editor

NFCPUB (freelance)
2022/2023

an NFC-based app for creating a network with a simple and easy digital way to instantly share contacts information
or get other people's contact information

Le Portail Economique Algérien (freelance)
2023

it is an online platform that allows the group and companies to register and publish their services, specifying the sector
it contains 4 spaces:
* a space for the admin to manage everything (sectors, services, groups, companies, subscription, banners ...)
* a space for groups to allow the administrator of this group to manage their companies, services, purchase of subscriptions,
  requests for advertorials, requests for banners
* a space for companies to manage their services, their subscriptions in case the company does not belong to any group, their requests ....

Proximity-based e-commerce application (Graduation project at LIRMM)
2023

is an e-commerce application based on proximity and which covers several areas:
* space for merchants: to allow merchants to define their online stores, the products of each store, receive customer orders,
  order processing, define the policy of each store, define payment methods, etc.
* space for customers: to see the list of nearby products, consult the pages of its products (policies, variants, prices .....),
  make orders, follow their orders
* space for the admin: to manage everything (merchants, customers, stores, orders, ...)
